

We are looking to enlarge our Finance team with an enthusiastic and dynamic person, at the beginning of career (0 – 2 years working experience in Accounting field), interested in professional development.

Our new colleague must have:

- Ø University degree in Finance/Accounting;
- Ø Strong understanding of Accounting principles and Financial Analysis knowledge (Management Accounting knowledge can rise your grade);
- Ø Extensive computer skills, especially MS Office – Excel. Database knowledge would be highly appreciated;
- Ø Excellent working knowledge of the English language, both verbal and written. French/German knowledge would be considered a plus;
- Ø Team work spirit and excellent communication skills;
- Ø Analytical thinking and structured working;
- Ø An open mind inclined to learn and accumulate knowledge in a fast pace;
- Ø Ability to work under strict deadlines.

The Role:

- Ø Ensures compliance of primary documents with the standards set by tax legislation and internal procedures;
- Ø Collect, summarize and analyze financial information of all the company projects (detailed input in the Controlling tool is required);
- Ø Follow-up of the open contracts during the year, to identify potential risks to future earnings performance;
- Ø Participate in the monthly closing process, ensuring complete and correct allocation of production costs to costs centers;
- Ø Participate in monthly Revenue building process;
- Ø Ensures timeliness of processing activities to meet the deadlines (Controlling & Accounting closing, Forecasting & Budget)
- Ø Prepare sales and financial analysis of all company projects.

We are offering opportunity to grow and develop a Controlling career and an open working environment.
