

**INTERNSHIP GUIDELINES**  
**FOR THE STUDENTS OF THE**  
**FACULTY OF FINANCE AND BANKING (FABBV)**  
**WITHIN THE BUCHAREST UNIVERSITY OF ECONOMIC STUDIES**

The provisions of the present internship guidelines (**version 2023.01**) are effective starting with **07.11.2023**.

Professional internships will take place in accordance with regulations, standards and methodologies in force:

- The Law of Higher Education no. 199/2023
- Law no. 258/2007 on professional internships for pupils and students
- Law no. 9/2015 supplementing art. 10 of Law no. 258/2007 on professional internships for pupils and students
- The general framework for organizing internships within bachelor and master programs approved by OMECT no. 3955/2008
- Regulations on tuition activities for bachelor programs
- Regulations on tuition activities for master programs
- The methodology on organizing and supervising internship activities within bachelor programs
- The methodology on organizing and supervising internship activities within master programs

Internship refers to the activities performed by students according to the curriculum with the purpose to verify their capacity to put into practice the theoretical knowledge acquired during the study program. Internship is a mandatory academic subject included in the 2nd year of study, as follows:

- a 4 - 14-week internship lasting for at least 112 hours (along the whole 2nd year of study) for bachelor students;

- a 7- 14-week continuous activity lasting for at least 280 hours for master students.

Students will perform their internship with internship partners or with departments whose profile is compatible with the syllabus demands. Considering the FABBV profile, the internship must be performed in institutions which fall within one of the categories mentioned in [Annex 1](#).

The internship will take place under the supervision of a tutor with the expertise and experience necessary to help the students supplement and consolidate the theoretical knowledge acquired during the study program. In order to qualify for this activity, tutors need to fall within one of the positions listed in Annex 2 (or an encompassing position relevant to the financial and banking field).

Student supervision will be ensured by the FABBV, throughout the internship, with the help of supervising professors. Assigning students to supervising professors will be established yearly by means of the organizational chart of the Department of Finance and the Department of Money and Banking; this data is contained into a distinct annex of the internship guidelines, both being published on the FABBV website (<http://www.fabbv.ase.ro/practica>). Internship consultancy hours will be included in the timetable and the schedule is to be posted on the personal page. Weekly student attendance at the internship seminar is not mandatory.

**CAUTION:** Students in previous years who did not get a pass the internship academic subject are to consult the list of supervising professors assigned for the current 2nd year of study and choose the group and supervising professor so as to complete their internship.

Please make sure you produce all the necessary documents.

The following documents are needed in order to participate in internship activities:

A. Before starting the internship students need to have:

1. The framework agreement completely filled in, signed and registered by all parties. The form of the framework agreement is available and can be downloaded at the following address <http://fabbv.ase.ro/practica>. Instructions of how to fill it in and where to have it signed and registered can be found in annexes 3a and 3b.

2. The internship portfolio completely filled in and signed by all parties. The form of the internship portfolio is available and can be downloaded at the following address <http://fabbv.ase.ro/practica> and it represents an annex to the framework agreement. A model of how to fill it in can be found in Annex 4.

B. At the end of the internship students need to have (in addition to the two documents mentioned above):

3. The internship certificate signed and registered by the internship partner; this must certify the number of hours completed, the period during which the internship took place and the qualifying grade given to each student for their performance. A template of an internship certificate can be found in Annex 5.

4. The internship book, in the form of a log describing, chronologically, the activities performed during the internship. A model of how to fill it in can be found in Annex 6.

5. The internship project needs to highlight how the knowledge acquired in one or several academic disciplines can be put into practice. Starting from examples of financial and banking documentation and analyses provided by the internship partner on a regular basis, the project needs to develop analyses performed by the students and/or suggestions for alternative approaches that could improve the activity.

**IMPORTANT!** Prerequisites to equate internship with employment (for the students who have a job) can be found in Annex 7a.

On the other hand, activities performed by students within European-funded projects can be equated with internships provided the conditions stipulated in Annex 7b are observed.

Internship activities are to be evaluated by means of oral examination (colloquium). Further information on how the latter will take place and the necessary documents can be found in Annex 8.

**NOTE. In case the tutor's occupation tasks (T)/equivalent professional profile (E) are in the 241 minor group code of Financial expert, but are not specified in the above table, the professional profile of the tutor's activity is checked to meet the internship coordination requirements and the conformity to the stipulations regarding the knowledge and applied competences that students need to acquire during the Bachelor's program.**

**Fill in guidelines for the Framework Agreement**

**Annex 3a**

**THE FRAMEWORK AGREEMENT WILL BE PRINTED ON BOTH SIDES**

**AND**

**DRAFTED IN 3 COPIES**

<b>Agreement details</b>	<b>On campus and long distance Bachelor's Degree Students</b>	<b>Master's Degree Students</b>
Preamble	Internship Partner Identification details	
	Student's Identification Details	
Art. 3. Time and duration	Minimum duration 112 hours	Minimum duration 280 hours
	Internship activity can be carried out after July 1st of the academic year in which the student registered as a first year student, and concluded before his/her trained skills assessment. The internship duration should cover the established minimum number of hours mentioned above.	Internship activity can be carried out at any time during the second year of studies, and concluded before his/her trained skills assessment. The internship duration should cover the established minimum number of hours mentioned above.
Art. 4. par. (1)	The corresponding internship type will be ticked.	
Art. 8. Information about the tutor and the supervising teacher.	The tutor and the supervising teacher's identification details will be filled in.	
Art. 9. Number of ECTS	3 ECTS	15 ECTS
Signature place	Acknowledged details will be filled in. The signature date will be added when performed.	

**NOTE:**

**Typing of the framework agreement is recommended. In case it is handwritten, it is strongly recommended to make the handwriting easy to read. Details should be accurately filled in and checked out. Since the agreement is a formal contract, NO subsequent wipe out, alteration or change are admitted.**

### Internship Framework Agreement and Portfolio transmission<sup>3</sup>

**IMPORTANT! Internship framework agreement and portfolio are to be concluded before the beginning of the internship activity, usually at the beginning of the academic year but not later than the first month of the second term**

Stage	<b>On campus and long distance Bachelor's Degree Students and Master's students – Bucharest headquarters</b>
1	After having been fully filled in (3 copies), the internship framework agreement is signed by the student. The internship portfolio is filled in under the guidance of the tutor and the supervising teacher (3 copies). The document is also signed by the student.
2	The agreements are submitted with the FABBV secretariat to be signed and stamped by the Vice Dean in charge
3	The signed and stamped agreements will be taken from the operating secretary.
4	The agreements will be submitted to the internship partner to be signed and stamped.
5	The agreements and portfolios will be handed in to the tutor to be signed.
6	The agreements and portfolios will be handed in to the supervising teacher to be signed.
7	<sup>4</sup> One copy of the agreement and of the portfolio <sup>4</sup> are handed in to the supervising teacher during the internship assessment together with other documents: internship certificate, notebook and project.
8	The supervising teacher will hand in the internship agreements, portfolios and certificates to the secretary in charge (in Bucharest or Buzau) and the student assessment grades list.
9	The secretary in charge (in Bucharest or Buzau) will add the internship agreements, portfolios and certificates to the student's file.

**NOTE: If the Internship partner is willing to sign the framework agreement before obtaining the University's signature and stamp, the agreements can be first submitted to the partner and subsequently to the University representatives, to be signed and stamped.**

<sup>3</sup> The Internship Portfolio is attached to the internship framework agreement

<sup>4</sup>The other 2 copies of the internship framework agreement and portfolio will go to the internship partner and to the student.

**Fill in model for the Internship Portfolio**  
**THE INTERNSHIP PORTFOLIO**  
**to the Framework agreement for performing the internship as part of the**  
**Bachelor's and Master's study programs**

1. The overall training length: 280 hrs.
2. The training calendar: Feb 22 –May 19, 2016
3. The training period, working time and schedule (to specify the training days in case of part-time work): Mondays, 8 hrs. (8.00-16.00), Tuesdays, 8 hrs. (8.00-16.00), Fridays, 8 hrs. (8.00-16.00)
4. The address where the internship is to take place: București, Sector 1, Bd. Economiştilor no. 55A, building B, 1st floor
5. Changing the place where the trainee is distributed has in view the following locations: it is not the case
6. Conditions for Bachelor's /Master's student's admission to the internship:
  - a. Assumed confidentiality engagement
  - b. Acquired labor safety rules
7. Ways to ensure the complementarity between the training acquired by the Bachelor's/ Master's student in the higher education establishment and the training obtained during the internship:
  - a. The student is to be distributed in a department whose line of activity is compatible with the topics studied in one or several academic disciplines
  - b. The training partner is to assign such duties as to enable the student to use the concepts and notions acquired in the specialty disciplines
8. Last name and First name of the teaching supervisor who is to monitor the trainee from a pedagogical point of view throughout the internship: PhD Prof. Popescu Ion.
9. Rights and responsibilities of the teaching supervisor from the educational establishment – organizer of the practical training during the internship:
  - a. The teaching supervisor is to give tutorials according to the timetable posted
  - b. The teaching supervisor is to approve upon the framework convention and the present annex
  - c. During the tutorials, the teaching supervisor is to monitor the way in which the practical training is being run.

10. Last name and First name of the tutor appointed by the enterprise to ensure that the training conditions are observed and the trainee is in a position to acquire the professional skills planned for the internship: economist Vancea Valerică – unit executive

11. Rights and responsibilities of the training tutor appointed by the internship partner:

a. The tutor is to guide the student throughout the practical training period

b. The tutor is to set concrete tasks for the students so as to enable them to turn to good account the knowledge acquired during the academic disciplines and to gain practical experience

c. At the end of the internship, the tutor is to issue a document containing the qualifying grade awarded (very good, good, satisfactory, unsatisfactory).

12. Defining the skills acquired during the internship:

No.	Skill	Training module	Workplace	Planned activities	Obs.
1	To carry out economicfinancial work in private and public organizations	Financial and accounting statements of the credit applicants	Wholesale Loan	<i>Briefly describe the activities to be carried out at the internship place to acquire skill I</i>	
2	To identify roles and responsibilities in a pluri-disciplinary team and to apply relationship-building techniques and effective team work abilities	The organigram of the internship partner and the Regulations on the organization and operation of the institution	Department	<i>Briefly describe the activities to be carried out at the internship place to acquire skill II</i>	
3	To identify the opportunities for continuing improvement and effective capitalization on the resources and learning techniques for personal development	Internal norms and procedures	Wholesale Loan	<i>Briefly describe the activities to be carried out at the internship place to acquire skill III</i>	

13. Methods to assess the trainee's professional training during the internship:

	Last name/ first name	Position	Signature
Teaching supervisor	<b>Popescu Ion</b>	<b>PhD Prof.</b>	
Tutor	<b>Vancea Valerică</b>	<b>Unit executive</b>	
Trainee	<b>Irimescu Ionică</b>	<b>Student</b>	
Data			

**OBSERVATIONS:**

- **The model shown above is to be taken just as an example. It will NOT be copied by students but adapted to the internship in question.**
- **It is advisable to type the portfolio to ensure its readability.**
- **3 copies of the portfolio will be filled in and will be annexed to the framework agreement.**

### **Internship equivalence to employment periods**

The internship is the equivalent of employment periods under the following conditions:

- If the minimum number of working hours is 280 (for Master's students);
- If the period of employment starts during the second year (for Master's students);
- If the employee's position can be found in the job list in Annex 2. If a student does not fulfill this condition, there is the possibility of submitting to the Secretariat of The Faculty of Finance and Banking (FABBV) a written equivalence request (addressed to the Dean), priorly approved by the supervising teacher. The request will justify (by annexing supporting documentation) that the position held contributes to the application of the knowledge acquired during the study program.

**IMPORTANT!** For a preventive check of the conditions listed above:

- The students that are already employed and wish to obtain an internship equivalence will submit to the FABBV secretariat until the deadline established annually by the management of the faculty and communicated through the website of the FABBV an employment certificate showing the employment contract period and the COR code of the position held;
- The students who get hired during the academic year and wish to obtain an internship equivalence will submit an employment certificate (containing the above information) to the FABBV secretariat as soon as possible but no later than the first month of the second semester. The students who do not simultaneously satisfy the conditions listed above (and who have not obtained approval on requests for COR code equivalence) cannot equate the internship period with the employment period and will have to do an internship in accordance with the requirements in this guide.

Regarding the students who meet the internship equivalence conditions, they will present the following documents (for more details see Annex 8) at the internship colloquium:

1. The internship portfolio
2. The employment certificate specifying the period and the COR code in the employment contract
3. The internship book
4. The internship project

#### **OBSERVATIONS:**

- As evident from the list of documents presented above, students who meet the internship equivalence conditions will NOT draw up a framework agreement.

- The equivalence of internship periods to employment periods can be performed only provided the conditions specified in this annex are observed. In this case, there are NO restrictions referring to the institution where the student works and his/ her supervisor's occupation respectively (the supervisor status will be awarded to the direct supervisor to whom the student reports at work).
- Term contracts are not contracts of employment, therefore, they cannot be equated.
- For the internship colloquium students will submit a new employment certificate, specifying the period and the COR code in the employment contract. The employment certificate submitted during the academic year to preventively check the conditions to be fulfilled for the equivalence of the internship periods to employment periods will be archived within the Dean's Office.

**Equating the internship period with internships performed  
within European-funded projects**

The internship period may be equated with internships performed within European-funded projects under the following conditions:

- If the internship was performed in conformity with the respective project's specifications;
- If the evaluation was performed in conformity with the respective project's specifications.

If the European-funded project documents do not specify a certain evaluation methodology, internship evaluation will be carried out in conformity with the stipulations of the present guide and of the applicable norms, methodologies and regulations;

- If the institution that hosted the internship falls within one of the categories listed in Annex 1 and the assigned tutor holds one of the positions listed in Annex 2.

If the internship performed within a European-funded project does not comply with all of the above requirements, students need to do another internship, according to the stipulations of the present guide. Performing another internship does not annul the potential financial rights that students may have obtained while participating in European-funded projects.

## Internship Colloquium

The activity performed during the internship is assessed by a colloquium before a jury consisting of at least two teachers and graded from 1 to 10. When deciding the grade, the jury will take into account the knowledge and the skills acquired, the quality of the project drawn up by the student and the qualifying grade granted by the practice partner.

**IMPORTANT!** Failure to pass the internship colloquium leads to the obligation to perform the internship again and to take a new internship colloquium during the following academic year. The internship colloquium can be taken during the reassessment session provided the internship has been completed by the date when reassessment is scheduled.

The colloquium is taken :

- During the examination session, after the completion of the internship period stipulated in the timetable for tuition activities timetable (for the Bachelor's students);
- During the last two weeks of the second semester (for the Master's students).

When taking the practice colloquium, the students will submit the following documents (failure to provide one or several of the mentioned documents results into the impossibility to take the colloquium):

### 1. The Framework Agreement - Remarks:

- a. The Framework Agreement will be fully filled in and duly signed by all the parties (ASE, Internship Partner, Student, Supervisor, Tutor) and duly stamped by the parties (ASE, Internship Partner).
- b. The dates of the signatures shall certify the fact that the Framework Agreement was concluded before the internship started.
- c. Should certain possible internship partners refuse to sign the Framework Agreement or accept to sign it in a modified form, the internship will not be recognized.
- d. **EXCEPTION!** The students who ask for their internship periods to be equated with periods of employment, do NOT draw up a Framework Agreement and, consequently, do not bring this document to the colloquium.

In all other cases, concluding the Framework Agreement and submitting a copy thereof at the colloquium is mandatory!

### 2. The Internship Portfolio (appendix to the Framework Agreement) – Remarks:

- a. The Portfolio shall be fully filled in and duly signed (Supervisor, Tutor, Student).

b. The students who ask for their practice to be equated with periods of employment shall also submit an Internship Portfolio.

3. The Internship certificate or the Employment Certificate – Remarks:

a. The Internship certificate shall certify the fact that the student has effected:

i. Bachelor's students: at least 84 hours of internship after July 1st of the year in which they were enrolled as first year students

ii. Master's students: at least 280 hours during the second year

b. The Employment Certificate shall certify that the student was employed by his/her employer:

i. Bachelor' students - at least 84 hours of practice after July 1 st of the year in which they were enrolled as first year students

ii. Master's students – at least 280 hours during the second year

iii. The employment certificate shall also certify the COR of the position occupied by the student so that compliance to the guide requirements may be verified.

c. The Internship/ Employment Certificate shall be signed and stamped by the issuer.

d. The certificate shall include the qualifying grade given for the activity performed by the student. Otherwise, the students will also need to submit a document that mentions the qualifying grade, duly signed by the tutor.

e. The students who had interrupted their employment by the date of the colloquium shall submit copies of the labor contract and other documents stating the date of employment and the date when employment had ceased, as well as the COR of the position held.

Considering that in certain EU financed internships the original copy of internship certificates is included in the project file, photocopies thereof are also accepted.

f. The Internship/Employment Certificate is issued by the internship partners in the format they currently use. An indicative sample of the practice certificate is presented in Annex 5.

4. The Internship Book - Remarks:

a. The Internship Book is a journal including the activities performed during the internship in a chronological order. It is recommended that it be typed.

A sample of practice notebook is presented in Annex 6.

b. The Internship Book will include a short description of activities performed during a number of working days which should cover at least 84 hours (for Bachelor's students) and 280 hours (for Master's students).

c. The students who ask for their internship period to be equated with periods of employment shall also submit an Internship Book.

5. The Internship Project – Remarks:

- a. The Internship Project differs from one student to another, as it reflects the type of activity performed at the internship partner's, as well as the specificity of its field of activity. The Project shall show how the skills acquired are applied to one or several disciplines studied at university. The Internship Project starts with a presentation of the documents and financial analysis usually achieved by the internship partner and, based on them, the students shall develop their own analysis of/proposals for alternative approaches which may lead to improvements in the activity.
- b. The Project shall be original (total or partial plagiarism will be sanctioned according to the regulations in force); emphasis will fall on the student's own contribution rather than on the information provided by the internship partner.
- c. The students who ask for their internship periods to be equated with periods of employment shall also submit an Internship Project.
